

## 250473 - DISAVESTFO - Advanced Design of Concrete Structures

Coordinating unit:	250 - ETSECCPB - Barcelona School of Civil Engineering
Teaching unit:	751 - DECA - Department of Civil and Environmental Engineering
Academic year:	2019
Degree:	MASTER'S DEGREE IN CIVIL ENGINEERING (PROFESSIONAL TRACK) (Syllabus 2012). (Teaching unit Optional) MASTER'S DEGREE IN CIVIL ENGINEERING (PROFESSIONAL TRACK) (Syllabus 2012). (Teaching unit Optional) MASTER'S DEGREE IN STRUCTURAL AND CONSTRUCTION ENGINEERING (Syllabus 2009). (Teaching unit Optional) MASTER'S DEGREE IN STRUCTURAL AND CONSTRUCTION ENGINEERING (Syllabus 2015). (Teaching unit Optional)
ECTS credits:	5
Teaching languages:	Spanish, English

### Teaching staff

Coordinator:	ANTONIO RICARDO MARI BERNAT
Others:	JESÚS MIGUEL BAIRÁN GARCÍA, ANTONIO RICARDO MARI BERNAT, EVA OLLER IBARS

### Degree competences to which the subject contributes

#### Specific:

8162. Knowledge of all kinds of structures and materials and the ability to design, execute and maintain structures and buildings for civil works.

8228. Knowledge of and competence in the application of advanced structural design and calculations for structural analysis, based on knowledge and understanding of forces and their application to civil engineering structures. The ability to assess structural integrity.

#### Transversal:

8559. ENTREPRENEURSHIP AND INNOVATION: Being aware of and understanding the mechanisms on which scientific research is based, as well as the mechanisms and instruments for transferring results among socio-economic agents involved in research, development and innovation processes.

8560. SUSTAINABILITY AND SOCIAL COMMITMENT: Being aware of and understanding the complexity of the economic and social phenomena typical of a welfare society, and being able to relate social welfare to globalisation and sustainability and to use technique, technology, economics and sustainability in a balanced and compatible manner.

8561. TEAMWORK: Being able to work in an interdisciplinary team, whether as a member or as a leader, with the aim of contributing to projects pragmatically and responsibly and making commitments in view of the resources that are available.

### Learning objectives of the subject

## 250473 - DISAVESTFO - Advanced Design of Concrete Structures

### Study load

Total learning time: 125h	Theory classes:	19h 30m	15.60%
	Practical classes:	9h 45m	7.80%
	Laboratory classes:	9h 45m	7.80%
	Guided activities:	6h	4.80%
	Self study:	80h	64.00%

## 250473 - DISAVESTFO - Advanced Design of Concrete Structures

### Content

Analysis of concrete structures	Learning time: 24h Theory classes: 7h Practical classes: 3h Self study : 14h
Method of struts and ties	Learning time: 7h 11m Theory classes: 2h Practical classes: 1h Self study : 4h 11m
Limit States	Learning time: 28h 47m Theory classes: 7h Practical classes: 5h Self study : 16h 47m
Structural Elements	Learning time: 24h Theory classes: 8h Practical classes: 2h Self study : 14h
Laboratory	Learning time: 4h 48m Laboratory classes: 2h Self study : 2h 48m
Evaluation	Learning time: 4h 48m Laboratory classes: 2h Self study : 2h 48m
